

HP300 Smart Fingerprint Gun Safe Box

Hp300 is a safe gun case with fast access and strong mobility. Access methods support fingerprint recognition, password recognition, and key recognition; strong security, quick to pull out the gun, airtightness, and anti-theft. Increase the handle design, easy to carry

FEATURES

- Optical fingerprint reader
- Silent-unlock mode
- Up to 120 fingerprint users
- Equipped with safety rope
- Low voltage alarm
- Equipped with 2 spare keys
- Power protection
- Ultra-low power consumption
- 19 gauge steel
- As big as A4 paper

Why design this finger gun safe box?

1. In the United States, gun safety is not only how to use and maintain, but also include proper storage. Pistols are often stored in locked boxes.
2. The main purpose of the pistol: home defense (children), personal defense, casual shooting, outdoor, competitive training, etc. It can be divided into 2 big scenes: home and outdoor. Household gun boxes are large in size and mostly made of steel. They are cumbersome and fixed in bedside tables, drawers, closets and other places, making them inconvenient to carry around.
3. Outdoor scenes: gun transportation (aircraft/driving), fixed in the car, and carried around, requiring high portability.

Product usage scenarios

1. Gun transportation-during flight, the guns and ammunition are separated, packed in a TSA-certified box, and checked.
2. Fixed in the car-without a concealed gun license, the gun must be locked in an empty chamber and stored separately from the ammunition in the trunk of the car or out of direct reach. It is often placed under the seat and trunk of the car.
3. Concealed carry-placed in a backpack or briefcase

SPECIFICATION

Material	1mm Cold rolled steel plate
Power Requiremen	4 AA Alkaline Batteries
Battery lif	12-16 months
Unlocking method	Metal key & fingerprin
Fingerprint sensor	Optical fingerprint sensor
Biometric Resolution	500DPI
FAR	≤0.0001%
FRR	≤0.001%
Exterior dimension	275×190×50mm(10.8×7.5×2.0")
Interior dimension	200×185×40mm(7.9×7.3×1.8"
Device Weight	1920g(4.22lbs
Working temps	-25°C ~ 70°C (-71.6°F ~ 158°F)
Working voltage	4.8-6.5v
Static current	≤25uA
Dynamic current	0.3A~1A
Product packing box size	32x 23 x 7cm(12.6" x 9" x 2.7")
Weight/individual packing	1.9kg(4.18lbs)
Carton size	53x 25 x 35cm(2" x 1" x 1.4)
Pcs/Carton	6 pc
Gross weight/Carton	13.5kg(29.7lbs)
Quantity / 20'Fd	535 cartons,3210
